Some U.S. leaders take 'do as I say, not as I do' virus stance

By ERIC TUCKER
Associated Press

WASHINGTON (AP) — The State Department has advised against all international travel because of the coronavirus, but that didn't stop Secretary of State Mike Pompeo from flying to Afghanistan this week. Gyms across the nation's capital are shuttered, but Sen. Rand Paul, an eye doctor, still managed a workout at the Senate on Sunday morning as he awaited the results of a coronavirus test. It came

back positive. The guidance against shaking hands? That hasn't always applied to President Donald Trump, whose penchant for pressing the flesh continued even after public health officials in his administration were warning that such bodily contact could facilitate the spread of the contagious virus. Practice social distancing? Daily White House briefings involve Trump and other senior officials crowded around a podium.

*Asociacion di Dentista di Aruba a introduci protocol***Dentista ta traha caso di urgencia so basa riba screening di e pashent**

ORANJESTAD – Asociacion di Dentista di Aruba a pone na conocimiento di comunidad cu nan a introduci un protocol pa e dentistanan local atende cu nan pashentnan pa asina evita cualkier contagio cu e coronavirus of Covid-19, ya cu boca ta un di e via factibel pa e virus aki por drenta bo curpa.

E anuncio ta uno oportuno, despues cu un video relaciona cu un ortodoncista local y un assistent di dje cu a abstene di atende directamente cu un pashent, cumpliendo cu exigencia di DVG, a bira viral recientemente.

Presidente di e asociacion aki, Lindsey Tromp, a duna conoce algun decision pa e dunado di cuidu oral pa medio

di un protocol basa riba diferente guia y recomendacion, y nan a drenta na vigor desde 16 di maart ultimo. E protocol ta keda vigente te cu 31 di maart. E ta un periodo pa nan evalua internamente y si ta necesario nan lo prolong'e y/of ahusta. "Tur cos ta depende di e situacion di e crisis di e corona," el a bisa.

E protocol ta indica entre

otro cu tur tratamiento regular ta keda posponi. Kiermen nan no ta brindando e servicio normal y nan consultorio ta cera. Sin embargo nan ta keda disponibel pa nan pashentnan via telefon y tambe via e-mail. Solamente nan lo atende casonan di emergencia na e consultorio. E protocol aki ta aplicabel pa e pashentnan cu no tin sintoma di griep, problema pa hala rosea, etc.

Nan lo haci un screening na e pashent prome cu e ta wordo atendi pa un caso di urgencia y e dunado di cuidu oral lo tuma un decision a base di e informacion aki, si e ta di emergencia of no. El a solicita pa suministra mas informacion posible y tambe honesto na bo dunado di cuidu oral. E caso di urgencia lo wordo atendi segun cita confirma telefonicamente of via e-mail. Pues e consultorio no ta ricibi pashent sin cita. Den caso cu e pashent cu Covid-19 tin un caso di emergencia esaki tin cu bay pa medio di coordinacion di DVG, y esaki ta conta pa e personanan cu ta den cuarentena tambe.

E manera di traha lo ta diferente cu lo normal. El a bisa cu lo tin mas distanciamiento cu e pashent. Lo evita aglomeracion den e sala di spera, y e solamente e pashent por bin compaña cu un persona so si ta necesario. Ta importante pa bo keda pendiente di cualkier informacion cu bo mesun dunado di cuidu oral ta divulga, sea via social media, avisonan na porta di consultorio, etc.

Nan ta consciente cu e maneho aki por trece cierto inconveniencia cu ne. Pero nan a opta pa introduci e protocol y maneho aki pa diferente motibo, particularmente pa e situacion cu nos pais y mundo henter ta pasando aden pa causa di e coronavirus. Lindsey Tromp a bisa cu e motibo mas importante tin di haci pa salvaguardia salubridad publico. El a laga sa cu e asociacion aki ta representa mayoria di dentistanan na Aruba y ta conta cu e miembresia di tres di e seis ortodoncista cu tin na Aruba. P'esey como dunado di cuidu oral nan ta haci loke ta esencial pa salvaguardia salubridad publico.

Task Force lo realisa control mas severo cerca hende den cuarentena

ORANJESTAD – E falta di responsabilidad di algun hende den cuarentena a bira un preocupacion den comunidad, principalmente mirando e situacion cu Italia y Spaña ta pasando aden.

Tin proposicion cu a bin di e mesun comunidad y cu a yega te na oido di e mesun minister di Salubridad Publico, Dangui Oduber pa purba contene cu e coronavirus of Covid-19 por sigui plama riba nos isla. Esaki mirando cu tin hendenan den cuarentena y cu no ta atende nan mes na e reglanan y instruccion duna pa DVG.

Oduber a referi riba e posibilidad di pone nan den cuarentena no na nan cas, sino ya sea den un hotel, logicamente cu tur material y ayudo medico y profesional necesario. E mandatario a indica cu esaki un comentario y te hasta un di e tipo di escenario cu nan ta discuti diariamente den seno di crisis team.

El a bisa cu tin dos situacion

cu por wordo presenta, ya cu si nan ta hiba e 800 pico hendenan den cuarentena pa un hotel, e ta un forma pa isola nan for di resto di nos poblacion y ambiente cu nan ta aden pa evita di contagia otro personanan. Pero e otro situacion ta cu ora bo ta hiba e cantidad di hende aki den un hotel, bo ta core e riesgo cu si un di e persona ey ta resulta positivo den un 'solo tiro bo tin 800 hende contagia cu e virus aki," el a bisa.

Di su banda, Sharline Koolman di departamento di Malesa Contagioso a bisa cu nan ta tende constantemente cu personanan no ta atendiendo debidamente na e cuarentena. E no ta papiando di e hendenan cu a biaha afo so, pero personanan cu ta den cuarentena pasobra nan tabatin contacto cu e persona cu ta isola y cu tin e virus. Esey ta wordo refleha den e cantidad di caso cu ta subiendo.

Task force

Koolman a anuncia cu a bin cu un task force pa ehecuta algun medida di control mas

severo. Pero mester bin cu algun areglo prome, specialmente di personal, pa por ehecut'e. Koolman a laga sa cu si mester bin cu mas medida, nan lo conseha gobierno tambe pa bin cu medidanan mas drastico.

Encuanto e posibilidad di interna e personanan den un centro di atencion special, Koolman a contesta cu e conseho aki a bin no solo na Aruba, sino den otro pais tambe, ora cu un persona ta sali positivo. Tin pais cu ta opta pa pidi tur esnan cu ta biba cune den cas por bay otro caminda. Esaki ta den caso cu e cas no ta brinda e oportunidad pa e persona isola por keda su so den un camber cu su baño particular. Tur esaki pa evita e transmision.

Riba e maneho cu ta wordo hiba na Aruba, el a señala cu tene e hendenan positivo of den cuarentena den nan cas ta posibel, semper cu nan ta atende y cumpli cabalmente cu e reglanan di higiena pa preveni e contagio pa otro hendenan den cas. El a indica

cu esaki a yega di sosode na China, Italia y otro paisnan. "Esey por! Pero esey atrobe

bao medidanan di higiena hopi stricto," el a bisa.

Encuanto presupuesto adapta 2020

Carta rabia di gremionan empresarial

ORANJESTAD – Gremionan empresarial di Aruba a reacciona negativamente riba e presupuesto adapta 2020, cu ta contene e plan di emergencia pa salvaguardia Aruba financieramente den e actual crisis.

ATIA, AHATA, CKA, Camara di Comercio, ACBA, ATSA y WAB a manda un carta dirigi na Prome Ministro Wever-Croes y ministro encarga cu Finanzas, Asunto Economico y Cultura, Xiomara Maduro, den cual nan ta pronuncia nan desacuerdo cu contenido di e Nota di Cambio ("Nota van Wijziging") cu a pasa parlamento ayera. Segun e gremionan a plan ta inacceptable y ta pone e posibilidad pa Aruba recupera di e crisis na peligro. Nan ta haya cu gobierno mester realisa cu comercio ta e unico fuente di entrada di e pais y cu na e momento aki ta necesario pa bin cu solucion cu ta trece inversion y actividad economico den comunidad mas pronto posible. Esey anto lo trece empleo di nobo.

E pakete di estimulo den e presupuesto ta abarca un mero Afl. 40 miyon loke ta ni 20% di e suma destina na e plan yama FASE y no ta suficiente. Recomendacionnan cu e gremionan a haci pa mantene cash flow pa negoshi nan no ta mira den e actual proposicion. Ademas e Nota di Cambio no ta contene detaye di e pakete di estimulo.

Tambe ta haya cu e Afl. 2 miyon pa equipo medico y informacion ta muestra poco, a menos cu parti di e gastonan ta inclui den e aumento di gasto pa AZV.

Punto clave pa e gremionan ta cu no tin mencion di baha gasto di personal den sector publico. Ta referi na Prome Ministro mes cu na varios ocasion a bisa cu e crisis ta afecta nos tur y cu tur mester yuda carga e peso. Como posible medida e gremionan ta propone kita e diferente premienan cu e empleado publico ta goza, manera Bashii Premie, Voorjaarspremie y Najaarspremie. Tambe aumento di salario y overbruggingstoelage pa esnan den puesto politico, igualmente e

areglo AZV+ y toelage pa terbeschikkingstelling (25%) pa esnan cu ta traha cu e ministronan, y aplicacion di regla di 'no work, no pay' y considera reduci salarionan significativamente.

Un reduccion di gasto asina lo reparti e peso mas igualmente entre empleado den sector priva y esnan den sector publico, segun e gremionan. Tambe nan ta enfatisa cu e crisis di coronavirus ta algo cu no ta comparable cu ningun otro cu mundo a yega di enfrenta. E gremionan ta expresa di a demostra di ta dispuesto di colabora pa limita e efectonan desastroso y a largo plazo di e crisis. Sin embargo, ta observa cu atrobe gobierno ta tuma decision unilateral y no ta considera e input di sector priva, ni tampoco a inclui nan

den e discusionnan cu ta sigui encuanto medida y alivio necesario. E gremionan ta finalisa bisando cu e Nota di Cambio ta indica cu gobierno no tin comprension pa cu e impacto severo di e crisis

riba nos economia, y ta urgi gobierno un biaha mas pa acepta e man cu e gruponan di sector priva ta extende pa yuda logra maximo resiliencia pa e isla.

No ta conoci ki mutacion di Coronavirus tin na Aruba

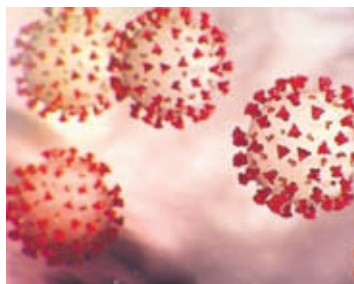

ORANJESTAD – Tin indicacion cu rond mundo e virus cu ta causa e malesa Covid-19, SARS-CoV-2, a conoce mutacion. Asina fuente New York Post ta indica cu cientificonan di Iceland a descubri cu e virus den e pais ey a conoce mas cu 40 mutacion bou e poblacion infecta.

Riba pregunta di Bon Dia, Babette la Tour, representante di Asociacion di Specialista na hospital a contesta cu te ainda no ta conoci ki mutacion ta presente na Aruba pero si cu e informacion aki lo ta importante durante e desaroyonan nos dilanti.

Maske e estudio aki no a wordo mira pa otro cientifico den veld medico, Allen Randrup Thomsen, virologo na universidad di Copenhagen, ta bisa cu esey ta coincide cu loke ta conoci caba di e virus. Esey ta pasobra ta conoci ya caba di informacion di China cu e virus ta conoce muta-

cion rapido y agresivo. Na China un estudio di luna pasa a indica cu tin 2 tipo di Coronavirus cu ta infectando su poblacion, un mas agresivo cu e otro.

La Tour a conta Bon Dia cu no ta conoci ki tipo di mutacion di e SARS-CoV-2 ta presente na Aruba, pero cu si ta muestra cu rond mundo tin varios mutacion, of si por yama nan asina, variacion. Mientras e virus aki ta desaroya na Aruba, la Tour a indica, lo ta importante pa monitor esaki. E representante pa tur especialista na Aruba a indica cu siguramente esaki lo ricibi su debido atencion di acuerdo cu e desaroyo.

DVG lo test mas proactivamente pa evita cu persona ‘sin nan sa’ transmiti Covid-19

ORANJESTAD – Minister Dangui Oduber (MEP) a anuncia den conferencia di prensa anochi cu Departamento di Salud Publico (DVG) a amplia e disponibilidad di testnan pa Covid-19, por medio di cambia e definicion di caso. Oduber a indica cu e meta di traha mas proactivamente ta pa evita ‘cu na momento cu tin un persona cu ta positivo sin cu e mes sa, cana rond siendo

cu e ta positivo, cual ta haci cu e ta contagia hopi mas hende’.

E decision ta sigui un yamada di varios persona di comunidad cu ta indica cu nan no ta sinti tur 3 sintoma di Covid-19, cual ta nifica cu nan normalmente no lo por a bin na remarca pa test. Di e manera aki ta haci e condicion pa test menos estricto. Esaki kiermen cu personanan cu no muestra tur sintoma di e

malesa— cual por ta un cantidad substancial mirando cu no tur hende ta haya e mesun reaccion— aworaki por bay yama e number di DVG 2800101 pa asina por duna indica cu nan ta sintiendo algun di e sintoma di Covid-19 pa asina por determina si nan ta carga e virus.

Minister di Salud a bisa cu actualmente ta haciendo 40 test pa dia. “Te aworaki nos a nota cu tur caso cu a test pos-

itivo ta muestra sintoma leve y p’esey nos a bay over na un approach hopi mas agresivo, proactivo pasobra nos kier test mas hende cu ta posibel. Pasobra tin hende cu por ta canando cu sintoma of cu por ta positivo sin nan sa. Nos kier evita cu e tipo di hendenan aki lo sigui contagia mas hende den comunidad”, e mandatario a expresa.

Aruba ta activa ‘search and destroy’ contra Covid-19 pa proteha hospital y caso severo

Sharline Koolman di Servicio di Malesanan Contagioso (Dienst Besmettelijke Ziektes, DBZ) a indica cu e decision aki ta activa Aruba su plan pa ‘search and destroy’ e virus cu ta causa e malesa Covid-19. “Esaki kiermen cu nos ta busca mas tanto caso cu ta posibel pa asina nos atende esakinan mas pronto cu ta posibel. Nos no ta bay sinta warda te ora un caso presenta y atend’e esaki. Esey por causa cu hopi caso ta aparece cu no ta leve mas”, Koolman a splica. No solamente pa proteha persona cu lo por contrae e virus y cu tin condicion di salud existente, pero tambe pa proteha hospital.

Con ta identifica posibel

caso positivo di Coronavirus

Ayera merdia durante conferencia di prensa regular duna pa DVG, dokter di cas Kenneth Croes a splica ki personanan lo por tin coronavirus y con ta defini e caso. E prome aspecto cu mester considera ta cu e persona mester tin sintoma cu e virus ta afectando su sistema respiratorio. Por ehempel, e persona tin tosamento, dolor di garganta, of e tin dificultad pa hala rosea. Banda di esaki, e persona cu tin sintoma a experiencia 1 di e siguiente casonan: 1. El a biaha den ultimo 14 dia. 2. Tabata den contacto directo cu un persona cu a test positivo den ultimo 14 dia, of 3. E tabata den contacto estrecho (contacto di distancia mas corto cu 1 meter) y cu frecuencia cu un persona cu a biaha den ultimo 14 dia.

Asina’ki DVG ta trece claridad riba ki grupo di persona por bay test pa haya sa si nan tin Coronavirus. Ta remarcabel cu a stop di existi cu e persona mester a muestra sintoma di keintura, mirando cu no tur persona cu transmiti e virus lo muestra tur sintoma, y te aworaki e casonan cu a presenta no a muestra di ta casonan grave cu sintoma pisa.

Minister Dangui Oduber:

Hende cu no kier tuma cuarentena na serio lo haya boet

ORANJESTAD –Minister di Salud Dangui Oduber a anuncia un otro decision cu ta trata di e personanan cu ta den cuarentena, esunnan cu tabatin contacto cu e pashentnan positivo pa covid-19 y esunnan cu a bin for afo den ultimo dos siman.

E hendenan aki ta bay ricibi un carta cu instruccion specifico di Gobierno di Aruba pa tene nan mes na e regla di cuarentena.

Den e momento cu e persona no kier adapta su mes den cuarentena, Oduber a splica cu nan lo ricibi un boet entre AWG 1.000 te cu 10.000 y si esey te ainda no ta suficiente, gobierno por medio di un decreto ministerial lo manda tur e personanan den ‘cuarentena obligatorio’.

Asina mes, el a menciona cu no tur hende ta tende e instruccion di gobierno di loke ta trata e ‘distanciamiento social’ y hopi hende no ta mira na serio e gravedad cu coronavirus ta trece cune. P’esey nan ta urgi pa tur

ciudadano cuida nan mes, nan famia y sernan keri, keda paden y sigui instruccion di gobierno.

Oduber a señala cu cada caso nobo ta un preocupacion, pero na mesun momento den cada caso ta identifica e persona, isola e persona, y asina evita cu e por sigui contagia mas hende.

El a reitera, cu no ta existi ningun motivo pa drenta den panico, na hospital no tin ni un hende cu tabatin mester cuida medico te na e momentonan aki. Tur caso positivo ta den su mesun cas den isolacion cu e situacion bou control.

Tambe el a bisa cu mester tuma na cuenta cu e pais por bay den un shut down completo, pero tur dia e scenarionan ta wordo discuti. Asina tambe nan a discuti si lo yega e momento cu tur caso positivo por keda den un mesun hotel, pero tin dos aspecto den e punto aki. El a declara cu si nan tuma e personanan den cuarentena – cu tin mas di 800 – ta berdad cu nan lo sali for di nan cas pa evita contagia otro

miembro di famia; pero di otro banda nan momento cu ta hiba 800 hende pa un of dos hotel, esey tin e riesgo cu si un di e nan resulta positivo, di biaha e 800 hende por wordo contagia.

Esaki ta un escenario dificil cu Oduber a trece dilanti y tambe a comenta

cu p’esey nan a tuma e decision di cera e frontera pa tur turista bay bek nan pais, pa motibo cu esey tabata e riesgo cu ta core cu si un di nan contagia na un di hotel, probablemente tambe ta core e peliger cu henter hotel lo wordo contagia.

BON DIA ARUBA ta un corant redacta y imprimi na Aruba y ta obenibel di dialuna te cu diasabra. Ningun contenido por wordo reproduci sin permiso di editor.

Distancia Social: 'E unico herment disponibel pa lucha contra COVID-19'

ORANJESTAD - Den dianan aki cu henter mundo mester aplica distancia-miento, tur hende mester compronde e motibo pakico esaki ta asina importante pa por evita di ta un proximo victima di e virus COVID-19 cu te ainda, no tin vacuna ni tratamiento.

'Distancia Social' ta un herment cu funcionarionan di salud publico ta recomenda pa disminui e propagacion di un enfermedad cu ta transmiti di persona pa persona.

Segun un descripcion di un Centro di Control y Prevencion di Enfermedadnan, distancia social ta consisti di evita e multitud di hende y mantene un distancia di dos metro pa persona. Por ehempel, na New York e teatronan a cera completamente, a cancela hopi charlanan na henter mundo y scolnan na Merca a cuminsa cera caba.

Esaki tambe ta inclui pa no toca un persona, duna man; e contacto fisico ta e contagio mas lihe y e manera mas facil di expande e enfermedad. Tambe ta berdad cu esaki no por ta 100% posibel, pero si comunidad ta cuminsa sigui e reglanan simpel aki, e mesun individuo por hunga un rol importante den e disminucion di propagacion di e virus.

Tambe ta existi otro nomber cu probablemente hende a scucha como ta 'isola mi mes'. Esaki ta pa motibo cu ta existi un posibilidad hopi grandi cu e persona aki a haya

contacto cu un persona afecta cu COVID-19.

Diamars anochi, minister di Salud, Dangui Oduber a specifica cu tambe tin hende cu mester cumpli 'cuarentena obligatorio'. Esaki ta loke autoridadnan ta indica pa un ciudadano cu mester permanece den un luga, por ehempel su cas, durante un periodo di 14 dia. Di esaki por tuma como por ehempel turistanan di un crucero.

Pero den realidad, pakico esaki ta funciona? Si personanan y henter comunidad ta cumpli cu distancia social di un manera corecto y na gran escala, esaki ta kibra of disminui e cadena di transmision. Un persona por transmiti COVID-19 desde por lo menos cinco dia prome cu e ta haya e sintomanan. Ta limita e cantidad di individuo cu ken un persona infecta por tin contacto y esunnan cu po-

siblemente e por wordo contagi, ainda sin cu e sa cu ta portador di e virus.

Actualmente, esaki 'ta e unico herment cu nos tin disponibel pa lucha contra coronavirus'. Expertonan ta calcula cu e vacuna lo por tarda desde 12 pa 18 luna, te awor no tin remedi disponibel cu por disminui e infeccion pa cu e virus aki.

Henter mundo mester cumpli cu esaki pa preveni un aumento indetenibel di casonan, principalmente di esunnan cu ta den edad avansa, cu mester protege mas y cambia nan manera di biba te cu e pandemia aki caba.

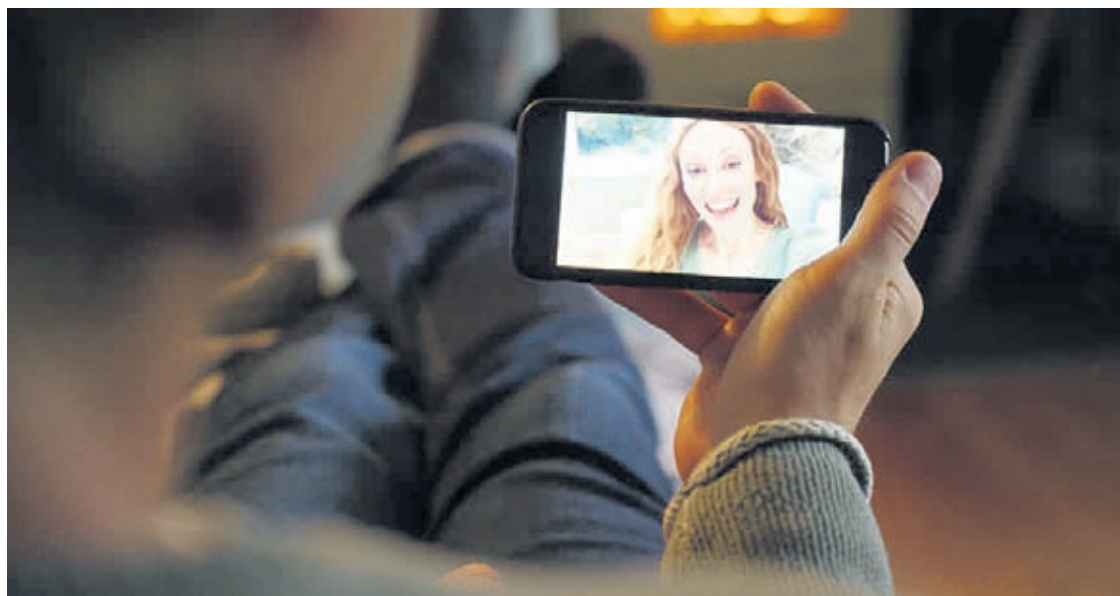

Otro manera di practica esaki ta dirigi na esunnan cu ta den un relacion amoroso. E pandemia aki ta asina intenso cu tambe a causa cu hopi pareha tin cu keda cas y separa di esunnan cu nan ta stima of es-

unnan cu nan lo kier conoce. E situacion aki a bira un preocupacion universal, na unda tur hende a keda paralisa.

COVID-19 a haci cu tur persona mester keda na cas y usa nan telefon pa por ta conecta cu otro, basila riba internet a bira e via di escape di miles di persona cu tin gana di haya un bon combersacion.

Cita online a cuminsa ta e anker pa mantene e cariño, intercambio humano, como tambe e resistencia pa via di angustia di ta aisla y den soledad.

Te poco menos di un luna atras, un di e mayor peligernan pa un persona tabata esun di keda na cas su so cu un persona desconoci y contra su boluntad. Awendia e enemigo number un ta algun gota chikito di scupi cu por scapa ora un persona ta hari of sunchi otro.

Chile a anuncia 220 caso nobo di coronavirus den un dia

SANTIAGO (Infobae) – Arturo Zúñiga, sub-secretario di Red Asistencia, ayera diaranson a anuncia cu despues di e confirmacion di 220 persona infecta diamars ultimo, Chile ta acumula 1.142 caso positivo di coronavirus.

Te na e momentonan aki tin 3 fayecido so, e ultimo tabata diamars ultimo, un persona di 82 aña cu tabata biba na Concepcion, afo di Santiago y cu tambe tabatin cancer. Presidente Sebastian Piñera a supervisa ayera un centro di convencion den capital cu a ser habilita como hospital, como parti di un programa cu ta busca aumenta capacidad sanitario na e pais cu 4mil cama, pa enfrente pandemia

di covid-19. Espacio Riesco, manera e ta denomina, lo duna espacio na 800 cama adicional na e red asistencial. Te e fecha, Gobierno a dispone e habilitacion di cinco hospital nobo cu lo provee pa e red di asistencia di 1.700 cama adicional, locual a uni pa e 700 aporta pa Fuerzas Armadas y cu un tota di casi 4.200. Den actualidad, Chile ta dispone di algo mas

cu 38.000 cama, di cual casi 70% ta pertenece na centro di salud publico.

E presidente tabata compaña di e minister di Salud, Jaime Mañalich, y Zúñiga, ken a bisa cu na Chile tin 40 persona den hospital pa coronavirus, pero lo ta mas. “Esaki ta nifica un desafio y un grandi exigencia pa nos sistema di salud”.

Covid-19 ta laga miles di turista pega na Latino America

(France24) – Coronavirus a yega na Latino America y a laga miles di pasahero di henter mundo pega despues di ceramento di frontera, e cancelacion di vuelonan comercial internacional y cuarentena imponi den varios pais di e region.

Aeropuertonan totalmente yen di hende, cancelacion di vuelonan, hotelnan y hostel den cuarentena. Esey ta e realidad cu miles di turista ta biba na henter mundo debi na e propagacion di e pandemia coronavirus.

Paisnan como Mexico ta yama nan ciudadano den exterior pa bin bek rapidamente, debi na reduccion den e frecuencia di vuelonan cu ta haci e regreso mas dificil. “Esunnan cu lo kier bin bek, mester haci e biaha y nan tin cu utiliza tur opcion disponibel”, sub-secretario di Relacionnan Exterior, Julian Ventura a bisa, ken tambe ta

coordina ayudo consular pa e regreso di Mexicanonan cu a keda pega na Europa, Asia y Africa.

Tambe e funcionario a agrega cu, debi na ceramento di frontera y cancelacion di vuelonan pa via di e crisis sanitario cu un bon parti di e planeta ta bibando, “awor no ta e momento di sali for di Mexico”.

Otro, como Colombia of Costa Rica a suspende e mayoria di vuelonan internacional y Aeropuerto El Dorado di Bogota a bira un hotel inespera pa biaheronan cu ta purba di sali for di e pais prome cu e cuarentena obligatorio.

Covid-19 ta presente na tur pais di America, pa loke gobiernonan Latino Americano ta implementa medidanan cada biaha mas restrictivo pa lucha contra e enfermedad mortal; y ceramento di frontera y cancelacion di vuelonan ta e prome medidanan di contingencia.

Panama: Cayanan desierto den prome dia di cuarentena total

CIUDAD DE PANAMA (EFE) – Cayanan desierto, negoshinan cera y supermercadonan vigila fuertemente: esey tabata e bista di Ciudad de Panama ayera diaranson, prome dia di cuarentena total pa detene COVID-19, cu a causa 8 morto y 443 contagio. Esaki tambe a pone hopi hende recorda e invasion Mericano di Panama na 1989.

Durante un recorrido, a constata e presencia di poco hende riba caya; negoshinan ta sigui cera, manera a bin sucede dos siman pasa ora e negoshinan cu no ta bende productonan indispensable a clausura.

E toque de queda a cuminsa drenta na vigor desde ayera y a keda estableci pa Decreto Ejecutivo 507, cu ademas ta dicta ley seca – of prohibicion, distribucion y benta di alcohol den e tempo cu e medida lo ta na vigor.

Presidente Panameño, Laurentino Cortizo, a bisa cu e cuarentena total a keda estableci di manera ‘indefinibel’ aunke tin excepcion pa sector vital como sanitario, alimento, botica, seguridad publico, transporte, comunicacion, banco y prensa. Ciudadanonan lo por sali for di cas solamente dos ora pa dia pa por abastecer di necesidadnan basico y mediante un sistema di orario basa riba number di identificacion nacional.

E extraordinario medida aki ta busca inmovilisa e poblacion pa detene e expansion di e virus cu ta compaña di otro cu caracter economico, como un ayudo extraordinario pa trahadonan keda cas obligatoriamente, e reduccion di tarifa di coriente y cancelacion di pago di impuesto y hipoteca.

Maduro a insisti cu por enfrenta e coronavirus cu medicina natural, mientras e a

Tambe el a asegura cu danki na e encuestanan y monitoreo di cas pa cas a traves di e sistema Patria, a realisa deteccion di 1.200 persona cu supuesto sintoma di griep. A pesar cu na inicio e tabata insisti cu e prome casonan tabata bin di exterior, awor e ta reconoce cu actualmente tin caso local. Mientras tanto, di otro banda presidente interino Juan Guaido tin como su tarea pa desmenti e informacion di gobierno di

Maduro. El a revela e situacion precario di e sistema di salud di e pais pa culpa di e negligencia di e dictadura Chavista, y a informa kico su administracion lo bay haci pa combati e virus, di cual ya nan tin mas di 200 caso registra. Durante un entrevista cu e periodista Venezolano Sergio Novelli, a traves di señal di di VPItv, Guaido a manifesta cu: “Ta criminal trata di compara e regimen cu e gobierno interino, e dictadura sa masha bon cu no ta un carta ta manda pa IMF pa pidi un credito, mester atende y contene e emergencia aki, cu ta bay di man, mester bisa esey.”

Venezuela: Fila na supermercado na Caracas

(LaPatilla/VOA) – A pesar cu parti di Caracas ta militarisa, pa evita aglomeracion, ciudadanonan ta continua haciendo fila den e supermercadonan pa compra cuminda, ya cu nan no sa te ki dia e medida di isolacion ta keda vigente.

Un voz militar ta adverti e ciudadania cu move den Caracas ta restringi, pero a pesar di esey, e filanan dilanti e supermercadonan a keda durante henter e cuarentena. Dilanti un negoshi, e consumidornan mester mantene poco mas di un metro di distancia entre nan. Esun cu por dreña ta solamente si e tin handschoen y masker. Pero banda di e preocupacion pa e virus ta bin e incertidumbre si e cartera ta resisti e dianan di keda paden aki.

“Bo ta compra loke bo por, y segun cos ta cabando,

bo ta sali compra un poco mas. Pero e ta costa hopi. Nos no ta haciendo cuminda tres biaha pa dia. Nos ta haci 2 pa e cuminda por wanta mas,” Aura Hernandez ta conta. Martha ta warda su turno pa dreña un carniceria den parti oriental di Caracas: “generalmente bo mester sali casi tur dia pa compra algo, pero bo ta haci un esfuerzo pa no sali.” E ta apoya e cuarentena estableci desde siman pasa pa e gobierno den disputa, pa preveni e contagio di coronavirus, pero ta spera cu e situacion por keda controla mas pronto posible, pasobra su trabao como doño di un pasteleria a mengua bastante, unda hende ta purba compra lo mas basico so. Gobierno di Venezuela a anuncia cu durante e cuarentena lo mantene e programa di benta di caha di cuminda na prijs abao, cu segun nan cifra ta yega na 6 miyon hogar.

Cantidad di morto pa coronavirus a Hulanda a aumenta

AMSTERDAM (Dutch-news.nl) – E number di personanan cu a muri na Hulanda pa motibo di coronavirus a yega un maximo di 80 persona durante oranan di anochi, esaki ta locual RIVM a anuncia den nan actualizacion diaranson. Aunke cu e cifra ta halto, e number den realidad ta involucra e personanan cu a muri den e ultimo dianan na lugá du un total di 24 ora, RIVM a bisa. E number di testnan positivo di corona virus a aumenta di 852 pa 6412, di cual 1836 ta

ser of a ser trata na hospital.

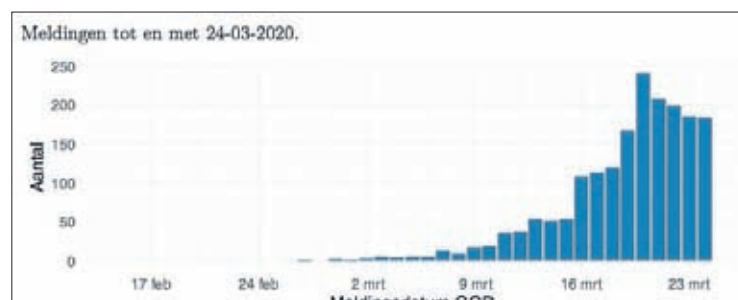

Apesar di e aumento fuerte di morto y testnan positivo, RIVM ta bisa cu tin evidencia cu e aumento den e number di ingreso hospitalario ta desacelerando, loke por indica un desaceleracion di e velocidad di e plamamento di e virus. “ Pero nos no por saca conclusionnan firme y e proximo dianan lo muestra si e curva ta bahando”, RIVM a bisa.

E hefe di RIVM Jaap van Dissel, a haci comentarionan

similar den un sesion informativo na e parlamentarionan. E estimacion ta indica cu e tasa di infeccion, e cantidad di personanan infecta pa un portador, ta igual of inferior bou uno, na lugá di dos of tres manera e tabata antes, Van Dissel a bisa. “ E crecemento exponencial d e brote ta parce di a detene”.

Sint Maarten mester impulso pa lucha contra crimen di droga

PHILLIPSBURG (Koninkrijk.nu) - Sint Maarten no tin un politica integral y multidisciplinario pa aborda e crimennan di droga y e problemanan relaciona cu droga riba e isla. E consumo di droga, e problemanan socioeconomico y psicosocial ta mantene otro. Y tin falta di un politica di prevencion gubernamental.

Esaki ta algun di e conclusionnan di e rapport di Inspeccion di conseho di aplicacion di e ley publico awe. E ta kere cu e lucha contra e crimen local di droga mester di un impulso.

Na 2019 e conseho a realiza un investigacion di inspeccion pa aborda e delincuencia relaciona cu e droga y problemanan relaciona cu droga, manera delincuencia, molester y problemanan di delincuencia relaciona cu droga.

Den e rapport di e inspeccion, e conseho a haci nueve recomendacion na e minister di husticia di Sint Maarten pa mehora e enfoko di e delin-tonan di droga y e problem-

anan relaciona cu droga.

E recomendacionnan aki ta relaciona cu e legislacion, e politica interministerial y e

tumamento di decision administrativo politico pa promove e cooperacion operativo, e prevencion y sensibilizacion.

E conseho a observa cu no tin falta di leyman y reglamentonan internacional of interregional. Sinembargo, e

Parlamentario Setty Christiaans-Yarzagaray (MEP):

‘Ami no kier a mara mi mes na entrega mil florin pa 3 luna si nos por duna mas’

ORANJESTAD -Ta conoci di un par di dia caba cu presupuesto 2020 ta na Parlamento pa wordo trata. Informacionnan di cambionan y scenarionan drastico cu mester bay wordo presenta den presupuesto 2020 door di e impacto di Coronavirus a yega na nos y nos ta sumamente preocupa cu esaki. Impacto di Coronavirus riba e salubridad di pueblo di Aruba ta un aspecto y e origen di e consecuencia riba e di dos reto mas grandi, cu ta e impacto financiero economico cu e combatimento di a virus aki ta trece cune.

Begroting 2020

Tumando nota di a panorama financiero nobo cu nos a ricibi cu expertonan a prepara pa gobierno a refleha un cambio drastico cu a bay di un surplus di 44.6 miyon florin pa un deficit di 1,3 biyon florin. E realidad aki a dal nos hopi duro y profundo den nos curason cu si mi para keto y pensa mi ta puntra con esaki por ta posibel. Maneho di finanzas publico tawata bayendo den asina bon direccion den apenas dos aña di tempo.

Cu Coronavirus tur cos a cambia, mundo a cambia y esaki ta bay cambia nos bida tambe.

Coronavirus y su impacto na Aruba

Den apenas algun dia cu e prome caso di Coronavirus a wordo registra na Aruba medidanan mester a wordo introduci pa preveni cu e virus ta plama y contagia un cantidad grandi di hende. Esaki teniendo cuenta cu Aruba cu capacidad den sector di salubridad manera tur pais y siguiendo protocolnan

y richtlijnen di World Health Organization (WHO). E impacto di e medidanan necesario aki pa evita un outbreak a wordo sinti mesora ora nos ta wordo acerca pa cantidad di hende cu a cuminsa perde trabou y entrada pero tambe comportacion di nos hendenan a cuminsa cambia pa preocupacion.

Mocion di POR di 1,000 florin pa 3 luna

Pa nos fraccion, sabiendo cu e situacion ta bay bira duro mirando ya cuanto hende ta acercando nos pa ayudo y e

panorama diferente di e presupuesto 2020 a duna, logica ta bisa nos cu nos tambe mester yuda y ta solidario pa e situacion cu nos ta bay confronta!

Den proceso di tratamento di presupuesto 2020 nos a wordo sorpresa cu un mocion di colega di Coalicion na unda el a pidi nos, nos sostiene su intencion por medio di un mocion pa Parlamentarionan entrega 1,000 florin pa 3 luna. Mi pensamiento y e pensamiento di fraccion di MEP ta cu nos NO kier mara nos mes na djis 1,000 florin pa 3 luna

mirando cu nos por a wak den presupuesto 2020 cu e impacto ta bay ta mucho mas cu esey y ta bay dura mas cu 3 luna so.

Si nos mara nos mes solamente 1,000 florin pa 3 luna pero Gobierno bin cu un proposicion pa nos entrega mas cu esaki tambe ta pensa cu logicamente nos mester por yuda miho y mas cu djis 3,000 florin total den un gap presenta di 1,300 miyon florin.

Conclusion

Nos kier duna pueblo di Aruba e siguransa cu fraccion di MEP ta bay yuda den e situacion aki pero no kier a mara nos mes na un plafond maximo di 3,000 florin manera ta e intencion di colega di POR. Como Parlamentario semper nos ta wordo acerca pa ayudo caba y esnan cu sa esaki y ta ricibi ayudo sa. Pero nunca nos ta papia di dje of ta bisa publicamente algo riba esaki. Nos ta pensa cu semper esaki tawata asina pues no ta un cos di awor. Semper cu mi haci esaki mi a hacie di curason y awor mas cu nunca nos curason y logica ta bisa nos cu nos por yuda miho y mas cu 3,000 florin total!

Parlamentario Shailiny Tromp-Lee (MEP):

‘Nos tin un temporada di incertidumbre grandi nos dilanti’

ORANJESTAD - Parlamentario Tromp-Lee ta indica cu tratando presupuesto 2020 e ta sinti un grado di impotencia hopi grandi pasobra e realidad

ta cu ta trata di un presupuesto traha prome cu e pandemia di Covid-19. Full e situacion di nos pais a cambia, y nos pais a keda bira boca abou. Nos unico

pilar economico practicamente ta shutdown. Un temporada di incertidumbre grandi tin nos dilanti. E presupuesto riba mesa sigur no ta realistico mas.

Gobierno a presenta un Nota di Cambio caminda ta bay bira posibel pa Gobierno por crea e fondonan presupuestario necesario pa por atende cu tur e efecto y consecuencias di Covid-19. Mester pensa riba e.o:

- o sigui combati e Coronavirus (medidanan di prevencion riba tereno medico)
- o bin cu un pakete economico di estimulo
- o y reenforza nos sistema social di subsidio y reparacion.

Presupuesto 2020 ta cambia drasticamente a base di e efecto di Covid-19. Entrada ta bay cay atras y gastonan ta bay bira mas grandi creando un deficit financiero cu ta core den 1300 miyon florin. Esaki a keda stipula door di calculacionnan realisa pa grupo di experto di Gobierno (DEZHI, DIRFIN y CBS)

y alabes conseho di Banco Central di Aruba.

Den e Nota di Cambio Gobierno di Aruba a pone 683 miyon florin pa brinda alivio na persona cu ta perde trabou door di COVID-19, na negoshi chikito y mediano cu ta weso di lomba di nos economia y pa tene nos sistema di seguridad social stabiel.

Segun Tromp-Lee awor mas cu nunca nos mester tin union, no ta ora pa haci politikeria! E palabra crucial na e momentonan aki ta SOLIDARIDAD! No tin tempo pa perde y ta crucial pa Gobierno su enfoca y atencion total ta riba e manejo di e situacion actual y e rebuilding di nos pais.

Tromp-Lee ta finalisa bisando cu e ta spera cu Parlamentarionan di oposicion haci lo corecto y duna nan sosten na e presupuesto y nota di cambio presenta.

Parlamentario Hendrik Tevreden (MEP):

‘Lidera, no tira para’

ORANJESTAD - Parlamento den un manera diferente awe a trata e presupuesto 2020 di pais Aruba. Den un parlamento completamente desinfecta y unda cu parlamentarianan tawata den nan diferente cambenan contrario na custumber unda cu tur ta den sala grandi di parlamento. Tur esaki pa no plama y mes momento evita di wordo contagia pa e Coronavirus.

Aruba ta para dilanti un reto hopi grandi, un reto unda mundo henter no a mira den e 100 añanan cu a transcuri. Aruba ta plat! Nos fronteranan ta cera, nos tin toque de queda y nos no sa con largo esaki lo dura.

Pronosticonan ta muestra cu si nada tuma luga, e impacto lo ta demasiado pa nos, y mas ainda un pro medio di 25 mil ciudadano lo por perde nan entrada cual ta calcula na 64 miyon florin pa luna. Nos negoshinan lo cera, nos scolnan lo keda cera, y cu un capacidad pa duna cuida limita esaki sigur ta algo critico pa nos comunidad. P’esey nos como fraccion di MEP ta di acuerdo cu gobierno cu apoyo of sin apoyo di Hulanda tin di actua rapido.

Banco Central di Aruba

Banco Central di Aruba tambe ta di acuerdo cu tin di tuma accion mas rapido cu ta posibel. Un di e motibonan ta pasobra cu nos fronteranan ta cera pa tene e virus afo, pa cuida nos ciudadanonan tin un impacto grandisimo riba nos finanzas publico y nos no por keda largo den un situacion asina.

Como cu turismo ta nos unico pilar economico y e pais nan cu ta bishita nos mas tanto cu ta Merca y esnan di continente di Europa tambe ta den un situacion critico. Lo por premira cu entrada di gobierno lo baha cu 627 miyon florin, esta cu turismo lo baha cu 80%. Si bini un vacuna o contene e virus kisas na 2021 turismo lo por stabilisa atrobe. Y pa e motibo ey Aruba lo tin un deficit di cerca 1.3 Biyon florin. Un suma cu gobierno lo tin di subsidia pa evita cu nos economia ta cay den otro y cu e crisis social cu nos a hereda lo crece aun mas.

Tiramento di para

Maske cu tratamiento di un

presupuesto ta algo serio, nunca bo no por kita afo cu den reunionnan politiconan ta busca pa tira un para. Den e caso aki no tawata diferente. Fraccion POR a presenta un mocion unda ta urgi pa cada ken entrega 1 mil florin pa 3 luna so. Un mocion unda cu ta trata na scapa di ta solidario cu pueblo den momentonan manera esaki. Si bo haci un rek som, y bo conta 21 parlamentario na 3 mil florin, bo ta suma 63 mil florin. Compare cu e necesidad di 1.3 Biyon florin bo ta mira cu aki e parlamentario kier hunga un wega, cu a bons bek riba dje. Nos fraccion sa cu si di berdad bo kier haci algo significante, bo lo tin di entrega mucho mas, y nos fraccion ta para pa esaki. Minister di finanzas a splica cu den fase 3 di e plan di contingencia tur gobernante y parlamentario lo entrega un cantidad mucho mas grandi cu esaki y sigur pa 1 aña. Basta cu e lo ta pa yuda esnan den mas necesidad, sigur nos no tin problema ningun cu esaki.

Pa conclui

Nos enfoka ta pa nos uni, nos meta ta pa nos sali mas fuerte di esaki. Y historia a muestra nos, cu e manera pa logra, ta den union. Union ta nos forza, union ta nos historia, y union lo yuda nos skirbi un capitulo nobo pa Aruba. Nos no a prepara pa esaki, pero nos tin confiansa y fe cu nos lo sali afo fuerte si.

P’esey mi ta haci un yamada na tur nos ciudadanonan, nos boluntarianan, nos iglesianan, nos comunidad en general laga nos ban para fuerte hunto. Laga nos combina nos forza pa gana e bataya aki. Y na politiconan ban lidera, pero no ban tira para.

COVID-19 por plama via awa residual

ORANJESTAD - Recientemente Hulanda a descubri coronavirus den e testnan haci riba e awa residual na Amsterdam, Tilburg y Kaatsheuvel, cual ta ser procesa na e planta di waterverzuivering na Loon op Zand, unda e prome victima Hulan-des di e virus aki a wordo identifica. E virus aki a ser haya cuatro dia despues cu e prome victima a test positivo pa e virus. Esaki ta segun e website Dutch-news.nl.

Mirando cu na Aruba e casonan di COVID-19 ta aumentando dia pa dia, y na nos planta di purifica awa ya tin un situacion unda e awa di

riool cu ta ser procesa y trata den e planta ta surpasa locual e planta por carga. E luga aki a ser construi den un tempo cu Aruba no tabatin asina hopi habitante of hotelnan. E planta ta haya 8.000 ton di awa y su capacidad di purificacion ta 4.500 pa 5.000, e planta e ora ey no ta purifica e awa na e nivel rekeri.

Mirando cu nos tin basta persona den cuarentena cu ta wardando ainda resultado di test, y awo 17 persona infecta, mester cuminsa test e awa na Bubali plas tambe como un medida di preveni a e coronavirus sigui plama. Esaki nos a nota caba cu e ta posibel pa esaki sucede via awanan di

riool.

Esaki ta nifica cu e testnan

haci di e awanan residual ta un bon manera pa yega na

acceso di e plamamento di e virus aki.

Aruba mester 1300 miyon pa bringa efecto di crisis

ORANJESTAD - Minister, parlamentarionan y empleadonan publico tambe mester haci sacrificio den e periodo di crisis aki. Recientemente prome minister a duna Parlamento un mensahe durante tratamiento di presupuesto diamars ultimo, e mandatario a bisa: "E crisis cu Aruba ta enfrentando ta un crisis sin precedencia y e unico forma pa nos sali di e crisis aki ta pa nos tur haci sacrificio".

Prome Minister a informa Parlamento cu e necesidad financiero pa por bringa e efectonan di e crisis aki ta enormemente grandi y pa cu esaki Gobierno di Aruba mester bay presta Awg. 1300 million.

Segun e comunicado cu nos

a ricibi ta indica cu e placa aki no ta suficiente y ta bay rekeri sacrificio di e sector publico. Ya ta bisto cu sector priva ta sacrificando. Miles di mama y tata di famia ta perdiendo trabou. Varios compania no lo wanta e sla aki nan y keda opera. Kiermen sector priva ta haciendo di su parti y aworaki Gobierno ta bay traha riba e parti di sector publico.

Minister di Finansa a duna un splicacion amplio di e manera con Gobierno ta atendiendo cu e crisis aki. Esaki ta bay den 3 fase. E prome fase ta cu hunto cu profesionalnan, institucionnan manera Banco Central, Central Bureau Statistiek y Directie Economische Zaken, asisti pa IMF y S&P, a yega na calculacion di e impacto aki. Basa riba e esfuerso conhunto y inmediato aki, a yega na e

suma di Awg 1300 miyon.

"Nos ta gradici Dios cu nos tin profesionalnan y nos sistemanan 'in place' pa por a calcula esaki mesora, algo cu otro paisnan den region ainda no sa con pa cuminsa calcula", Prome Minister a duna di conoce.

Fase 2 ta pa busca e fondonan pa asina estabilisa e fondonan di AZV y SVB y tambe percura cu Gobierno tin fondo pa por sigui funciona. Esaki a haya aprobacion diamars 24 di maart di Parlamento. Gobierno di Aruba awor por cuminsa busca e fondonan aki. Unabes cu tin e fondonan aki y cuminsa yuda esnan afecta, Gobierno lo bay pa fase 3.

Fase 3 kiermen baha gastonan di Gobierno. Corta drastica-

mente den gastonan di Gobierno y ahusta e patronchi di gasto na e realidad nobo pasobra e realidad ta cu e virus aki lo cambia tur cos pa nos. Nada lo keda mescos. Den e caso aki Gobierno mester ahusta den e presupuesto tambe di acuerdo cu e situacionnan nobo.

Den esaki, Prome Minister a enfatisa cu si kier bay sigui funciona como Gobierno, Minister, Parlamentario y empleadonan publico mester bay entrega parti di nan salarionan y beneficiacion. Pasobra Gobierno no ta bay tin placa pa por paga tur e gastonan. Esnan cu ta interesa pa sigui traha den servicio di Gobierno lo tin cu entrega pa por keda cu e trabou. Ta bay tin otronan cu talbes no lo kier entrega y lo bandona servicionan di Gobierno talbes

pa busca otro oportunidad. Pero e realidad cu e crisis aki ta laga nos cune ta cu nos tur mester bay sacrifica. Prome Minister a indica cu ainda no sa e cantidad di loke mester sacrifica pasobra esey ainda mester wordo calcula. Pero aworaki e urgencia ta pa yega na e fondonan pa estabilisa fondo di AZV y SVB pa asina Gobierno por funciona y yuda esnan cu mas mester aworaki door di e crisis.

Prome Minister riba e sugerencia di Parlamentario Allan Howell pa Parlamentario y Ministernan entrega Awg 1000 pa luna pa 3 luna, a duna di conoce cu aunke esaki ta un gesto noble, e no ta loke nos tin mester aworaki pasobra ta premira cu Minister y Parlamentarionan lo mester bay corta y entrega hopi mas cu Awg 1000 y hopi mas cu 3 luna. Pa esaki Gobierno mester di tempo y espacio pa haci e calculacionnan drechi y real pa no core haci cosnan adhoc cu no lo yuda mucho.

"Lamentablemente e crisis aki ta forsa cu nos tur mester bay entrega. Gremionan ta reclama cu Gobierno no a haci e ahustenan y no a entrega. Pero nos no ta asina leu ainda. Tin demasiado aspecto di e crisis aki cu mester atende pareu cu nos no a logra yega aki nan ainda. Gobierno mester bay papia cu e sindicatonan prome y lo haci esey den e proximo dianan. Pero lamentablemente e crisis aki ta bay pone cu nos tur mester haci sacrificio pa nos sali fuerte bek como pais", Prome Minister a enfatisa.

KPA: Solucion pa libertad di prensa den TDQ ta 'press pool' cu control

ORANJESTAD – Ayera nochi Vanessa Tjon-Kock, Alto Comisario suplente di Cuerpo Policial Aruba (KPA) a anuncia cu despues di un deliberacion den Crisisteam hunto cu algun miembro di prensa, a yega na un areglo pa prensa por haci su trabou durante Toque de Queda, mirando

cu Aruba mester respeta leyman cu ta garantisa libertad di prensa, libertad di prensa pa colecta informacion.

Alto Comisario Kock a splica cu e punto aki tabata uno sensitivo pa trata, mirando cu KPA y gobierno di Aruba tin cu tene cuenta cu leyman cu ta

vigente na Aruba riba bewegingsvrijheid y persvrijheid. 'Esaki kiermen cu bo tin cu tene cuenta automaticamente cu leyman existente y bin cu acuerdonan cu e grupo aki pa garantisa esaki', Kock a splica.

Tabatin un grupo di prensa cu a sinta cu Prome Minister Evelyn Wever-Croes pa asina

bin na acuerdo riba con lo bay garantisa cu prensa por haci su trabou conforme leyman di prensa, teniendo na cuenta tambe leyman cu Cuerpo Policial ta aplica. E solucion cu a bin cune ta cu 'den un manera structura y organisa', Kock a indica, un grupo di 3 miembronan di prensa lo ta den rotacion den un 'press pool' unda cu cada anochi e miembronan di prensa aki lo tin acceso na caya pa asina por haci nan trabou. E miembronan cu tuma parti di e press pool aki lo haya guia di vocero di KPA Lito Laclé y lo mester comunica cu e vocero pa asina regla unda e miembro di prensa kier bay pa esaki por ta posibel.

Kock ta subraya e hecho cu miembronan di prensa por spera cu nan lo bay wordo controla pa agentenan di Cuerpo Policial ora nan presenta na un sitio, 'mescos con ta controla ami tambe como autoridad'. "Mi ta sigur cu di parti di medionan di prensa, cu esaki nos por yega na un acuerdo caminda cu toch nos por yega na miho entendi-

mento cu otro. Respetando di nan banda tambe e leyman existente cu nos tin cu traha cune durante Toque de Queda y nan presencia y nan trabou diariamente.", Kock a expresa.

No ta conoci ki condicion lo tin pa miembronan di prensa, ni con esaki lo wordo reglamentado. Sinembargo Kock a indica cu esaki ta bay den efecto awe. Ta remarcabel cu tin un cambio di tono den direccion di e discusion aki, pero no ta conoci dicon a bin e cambio di tono. Esaki ta despues cu fraccionnan di SP y GroenLinks den Parlamento Hulandes a haci preguntanan por escrito na minister di Relacionnan di Reino, Raymond Knops. Parlamentario di SP Ronald van Raak a hasta a conta Ret Karibense cu "nos mester yuda Aruba, pero si nos yuda Aruba, nos tambe por pone condicion", insinuando cu mester por garantisa libertad di prensa pa asina Aruba bin na remarca pa ayudo financiero den e crisis di Covid-19.

Ta curasha hende pa cuminsa planta

ORANJESTAD – Santa Rosa lo ta introduciendo video pa asina brinda informacion na comunidad di Aruba pa un manera mas simpel pa hende por traha un hofi den nan cura y cosecha mas lihe.

Director di Santa Rosa, Nathalie Maduro a duna di conoce cu nan tin 'hopi material caba' pa esunnan cu tin Facebook wak e sistema diferente di traha un hofi, pero e biaha aki lo pone enfoca riba producto cu por cosecha mas lihe.

Nan lo ta trahando video di 2 minuut pa asina hende por motiva y haci esaki na nan cas. Maduro ta splica cu mirando mayornan ta na cas, nan kier curasha pa mayornan recicla.

Sea nan tin na cas bleki di lechi bieu, boter di soft drink bieu, di plastic, 'corda bora un buraco'. Di e forma aki, e mayornan por tambe motiva nan yiunan pa planta hunto y por comparti y mira di leu cu e mata ta creciendo.

Santa Rosa lo sigui stimula e importancia di desaroyonan cu ta bon pa biba na Aruba,

manera 'nos mester pensa produci nos mesun cuminda'. Maduro ta bisa cu algo cu ta wordo hopi biaha bisa y scucha, sinembargo nunca ta practica.

E ta expresa cu ta momento pa tur reflexiona y realisa cu tin cuminda pa crece pa famia y pensa cu e ta algo pa Aruba. Actualmente, mirando e situacion di pandemia, nan ta avisa tur e cunukeronan cu Santa Rosa ta draai den team chikito.

"Nos no por cera henter e localidad pa motibo di bes-tianan cu nos tin. Nos tin mata cu nos tin cu atende. E caha ta habri di 8:00am te cu 12:00pm. Nos a manda informa minister cu mester un plan di aanpak caminda ta sugeri gobierno pa wak e puntonan cu mester tene cuenta cune", Maduro a splica.

Den caso cu e situacion bira pio pa nan, mester tene cuenta cu cunukero cu e dam su capacidad ta bira menos, manera cu e ta bayendo awo ta 10 pa 12 truck di awa pa dia, manera e capacidad caba full, lo bira dificil pa bende

awa.

E ta bisa cu mester tin un plan. Tambe pa e capacidad financiero pa paga e awa di WEB. Un ehempel cu el a menciona ta e hende cu ta cria porco, cu ta depende di restaurant pa nan porco; si esakinan a cera nan tambe ta sinti efecto.

Maduro ta pidi pa persona cu tin cuminda cu resta purba yuda esunnan cu den bario tin criadero di porco, pa asina ta pendiente di nan. E ta bisa cu mester tene na cuenta cu porco ta un bestia cu por come yerba, mata di fruta.

Pa esunnan cu mester di acerca Santa Rosa pero no ta yega na tempo pasobra ta trahando, e ta bisa cu por tuma contacto cu Shrek Fleririna, cu tin producto y tambe Canashito Farm Supplies cu cuminda pa bestia cu ta bendiendo ainda.

"Tin problema pero tin solucion. Nos ta purba pa brainstorm pa asina bin cu e miho solucion y por sigui sostene e productornan. Nos ta comprende e situacion ta fastioso, ta causa hopi stress den co-

munidad pa motibo cu no ta un situacion cu nos ta custuma cune", Maduro ta bisa.

Nan lo purba keda tranquil cu nan enfoca di con por ta mas independiente di cuminda pa cuminsa. Den caso cu 'spera no pasa' pero un barco no por yega di Aruba cu cuminda, ta algo cu Santa Rosa ta conseha y no pa warda cu mester yega na un situacion dificil pa asina persona cuminsa planta.

Maduro ta enfatisa cu ta algo cu mester tin practica, manera tin compania di hydroponics cu tin un challenge di contract awo cu hotel y restaurant. Nan ta pidi manera comunidad tambe por sostene e productor local.

"Nos kier encurasha y stim-

ula pa esnan cu tin compania no stop cu nan produccion, pa nan sigui cu na mercado, hende lo tin cu sigui come. E ta algo pa considera, pero ta pidi pa comunidad duna oportunidad na e mercado local y cumpra nan producto. Pa esnan cu ta bende of tin negoshi pro laga nos sa y asina ta pone informacion y tambe cua ta esnan cu ta haci entrega na cas pa haci'e mas facil pa cliente", el a bisa.

Ta recorda cu nan lo ta available riba nan Facebook page Santa Rosa unda nan lo pone informacion di ken tin producto pa hende. Nan lo conta tambe cu sisten di prensa. Nan ta conseha pa sigui produci y comunidad por haya e cuminda fresco.

Some U.S. leaders take 'do as I say, not as I do' virus stance

Continued from Front

Even as the country has largely hunkered down, heeding the guidance of health experts and the directives of state leaders, some powerful people in Washington have defied preventative measures aimed at curbing the spread. Their business-as-usual actions are at odds with the restrictions everyday Americans find themselves under, and with the government's own messaging. Some human behavior experts say the "do as I say, not as I do" ethos seemingly on display is common among powerful officials, who may be inclined to think they don't have to follow rules for the general public in the same way or who can easily dissociate their own actions from what they say is best for others. "When we have high power, we think of ourselves as exceptional as if the rules don't apply to us," said Maurice Schweitzer, a professor at the Wharton School of the University of Pennsylvania who has researched behavior and decision-making. "We're much more prone to do what we want because we don't feel constrained in the way that less powerful people do." In Pompeo's case, the State Department says the unan-

nounced trip — coming amid a near-global travel shutdown — was necessary and urgent because of political turmoil in Afghanistan that U.S. officials fear could threaten a recent U.S.-Taliban peace deal that calls for American troop withdrawals. Pompeo left Kabul on Monday without being able to secure a power-sharing deal. People traveling with Pompeo had their temperatures taken and were given bags containing a face mask, hand sanitizer, bleach wipes and mini-disposable thermometers. A State Department medical official told reporters Pompeo and his staff would not be quarantining themselves because Afghanistan is not considered a high-risk country for the virus and

because Pompeo's movements on the trip were controlled. For most people, the new coronavirus causes mild or moderate symptoms, such as fever and cough that clear up in two to three weeks. For some, especially older adults and people with existing health problems, it can cause more severe illness, including pneumonia and death. Some of the behavior by other officials has drawn rebukes. Asked in a Science Magazine interview about Trump shaking hands, Dr. Anthony Fauci, the director of the National Institute of Allergy and Infectious Diseases, said he tells White House staff that "we should not be doing that. Not only that — we should be physically

separating a bit more on those press conferences." Several senators, scolded Paul, R-Ky., for refusing to self-quarantine after he'd been tested. The doctor overseeing the government's coronavirus response suggested that Paul's actions fell short of model "personal responsibility." More than two dozen senators are in their 70s and 80s, putting them at high risk if exposed. Still, despite risk to senators and the fact that gyms across the country have been closed as a precaution, Paul and other senators were able to continue going to the Senate gym, using a keypad for access. Paul went into quarantine Sunday after learning his results. His announcement led Utah's two GOP senators, Mike Lee and Mitt Romney, to place themselves into quarantine. Sen. Sherrod Brown, D-Ohio, said in an interview with Newsy, an online and streaming news site, that Paul's actions were "irresponsible" and that senators in general have been acting as if they were somehow immune to getting sick. Brown cited what he said was a "photo opp" for senators held over the weekend. "I think that senators must think that they're invincible," Brown said.

Paul said he thought it "highly unlikely" he was sick before getting the test results and had no symptoms of the illness. He said he did not have contact with anyone who tested positive for the virus or was sick. He was at the Senate gym Sunday morning, though Paul's staff says he left the Senate once he received the results. Asked about Paul, Deborah Birk, the coordinator of the White House coronavirus task force, said people can spread the virus while being asymptomatic, so social distancing is imperative. She noted that she herself stayed home over the weekend when she felt ill. She took a coronavirus test that came back negative. "These are the kinds of things that we have to do for one another. This is the personal responsibility that I'm talking about that we all have to practice," Birk said. Trump raised eyebrows among public health specialists when he shook the hands of retail and health industry specialists at a Rose Garden news conference two weeks ago. He acknowledged Monday that shaking hands has been a hard habit to break, having become accustomed as president to doing so with "literally thousands of people a week." □

U.S. Justice Department: Don't treat trans athletes as girls

By PAT EATON-ROBB
AP Sports Writer
HARTFORD, Conn. (AP) — The U.S. Justice Department is getting involved in a federal civil rights lawsuit that seeks to block transgender athletes in Connecticut from competing as girls in interscholastic sports. Attorney General William Barr signed what is known as a statement of interest Tuesday, arguing against the policy of the Connecticut Interscholastic Athletic Conference, the board that oversees the state's high school athletic competitions. The conference allows athletes to compete as

the gender with which they identify, arguing it is following a state law that requires high school students be treated according to their gender identity. It also argues the policy is in accordance with Title IX, the federal law that allows girls equal educational opportunities, including in athletics. The Justice Department, in its filing, disagrees. "Under CIAC's interpretation of Title IX, however, schools may not account for the real physiological differences between men and women. Instead, schools must have certain biological males — name-

ly, those who publicly identify as female — compete against biological fe-

males," Barr and the other department officials write. "In so doing, CIAC deprives those women of the single-sex athletic competitions that are one of the marquee accomplishments of Title IX." The lawsuit was filed in February by runners Selina Soule, a senior at Glastonbury High School; Chelsea Mitchell, a senior at Canton High School; and Alanna Smith, a sophomore at Danbury High School, against the conference and several local boards of education. They argue they have been deprived of wins, state titles and athletic opportunities by being forced to compete against transgender athletes. □

Pressing Down

SANTA CRUZ - In the late fifties attending the Miami Country Day School or Boys in Miami Shores, I woke up one morning in my dormitory with a fever and the classical symptoms of measles the three Cs—cough, coryza (runny nose) and conjunctivitis (red eyes). Of course those were the days, before the MMS vaccine when children were still allowed to get measles. I duly reported to the infirmary to sweat out my fever that would last at least three days.

Five days later, I was still in the infirmary. My bout with the virus had been uncomplicated, yet the physician who came in every afternoon hearing I was still sleeping most of the day, would not order my discharge from the school infirmary. The doctor made sure I had not had diarrhea checked me carefully with his stethoscope for pneumonia. He knew complications are usually more severe amongst adults who catch the virus and that the fatality rate from measles in children or for otherwise healthy people in developed countries is low. Why was I still lethargic?

Asking some questions about my home back in Aruba, I heard the good doctor, on his way out of the infirmary arguing with the school nurse. Several minutes later with much complaining the nurse brought me a cup of coffee laden with milk and sugar. Even though she had been told that coffee and milk was usual break-

fast beverage for Hispanic children; this matron was devoutly against giving coffee to children. Astutely aware of cultural differences among Hispanics, even before the Cuban exodus to Miami, the school doctor had chosen correctly a food that would pull me out of my funk. Within an hour I was wide awake a clamoring to be able to join my schoolmates.

What the insightful school doctor had realized is that I was clinically depressed. Our word depression comes from the Latin word "deprimere" which means to "press down". Perhaps this comes from the realization that people can feel that life is pressing them down. Many people identify the feeling of being depressed as "being blue", "feeling sad for no reason", or "having no motivation to do anything". Indeed, many symptoms of depression include feeling sad or blue, anxiety or irritability, or feelings of worthlessness or excessive guilt. When a person has thoughts of death or suicide they usually can figure out that something is not right with them.

In our clinic, I diagnose patients as suffering from a stagnation of Liver chi. This indicates that the energy within the body is not flowing smoothly and results in the symptoms of depression even when patients themselves do not recognize this. As a result of Liver Chi Stagnation, the Heart, Spleen a/or Kidney systems may also be affected.

Symptoms may include

significant weight loss or weight gain, explained by Tradition Chinese Medical physicians as weaknesses in the Spleen, short-term, it may lead to problems with fatigue and digestion. Long-term problems related to mucus, which could affect the mind in ways such as muddling the thinking. Longer-term weaknesses in the Spleen may also begin to affect the quality of blood in the body, which can strongly influence the heart system, causing symptoms such as insomnia and/or restlessness. Insomnia or excessive sleeping, are additional symptoms of depression.

Fatigue or loss of energy can reflect an imbalance in the Kidney energy. If left untreated, the Kidneys inability to nourish Liver energy produces a definite loss of interest or pleasure in normal activities. People who have lost their interest and pleasure in sex usually excuse their position as being "too tired". The Kidneys, being strongly related to the foundations of Yin and Yang, the combined forms of energy in your body, are also likely to play a role in the ability to climax and vaginal lubrication.

Some of the common lifestyle habits which may contribute to this are: lack of exercise, poor dietary habits - especially fried foods and foods not meant for our metabolic type, alcohol and other drugs, including some prescription medications and repressed or overly expressed emotions, especially anger or

grief. People who realize they are in a funk are better prepared to help themselves. Clinical depression, where physical symptoms of depression are present can be more serious than normal depressed feelings because it often leads to chronic negative thinking and substance abuse.

Regardless of the cause, standard medical treatment for both acknowledged and clinical depression is antidepressant medication, which unfortunately, has risks. Already, in 2005, the US Food and Drug Administration issued a warning of possible increased suicide risk in adults taking antidepressants and an increased suicide risk in children. With such overwhelming evidence against the prescription of the newer antidepressants, why are such drugs still the primary medically accepted option?

There are other ways to treat depression, including acupuncture treatments, counseling and natural herbal treatments. An important caution is that no food based supplement that is effective in treating depression should be taken together with antidepressant medication, since they could compound the negative side effects. This is especially relevant with St. John's wort.

In our clinic we use a combination of diet and acupuncture to rebalance the energy of your body and to support you as you transition off antidepressant medication. Once the me-

tabolites or chemical traces of antidepressant medication are out of your body we recommend SAME, s-adenosylmethionine, and 5-HTP, 5-Hydroxytryptophan. SAME is a substance that occurs naturally in the body and that can be taken as a supplement. 5-HTP is a naturally-occurring amino acid. Studies have demonstrated that neither of these substances have the side effects of antidepressant medication and both are effective as natural antidepressants, appetite suppressants, and sleep aids.

Get The Point! Often, individuals who live in modern society become stressed beyond the natural bounds of a healthy physiology. Regardless of the origin of the stress, or if we consciously recognize that we are depressed the effects may very well be the same. Aggressive antidepressant medication advertisement promises to get you out of your funk by taking their little pill. However, the small print paints a more dangerous picture. For a safer alternative for your symptoms, call for an appointment. □

LONDON (AP) — Prince Charles, the heir to the British throne, has tested positive for the new coronavirus, royal officials confirmed Wednesday — touching off debate about whether his wealth and status gave him priority in receiving a test. The 71-year-old is showing mild symptoms of COVID-19, the disease caused by the virus, and is self-isolating at a royal estate in Scotland, the prince's Clarence House office said. His wife, Camilla, the Duchess of Cornwall, has tested negative.

"The Prince of Wales has tested positive for Coronavirus," Clarence House said. It said he "otherwise remains in good health and has been working from home throughout the last few days as usual."

Britain's Press Association, citing a source, said the prince and the 72-year-old duchess remained in good spirits, and that Charles was not bedridden.

The British government has advised people over age 70 to take social distancing measures especially seriously and warned they may need to stay home for 12 weeks.

For most people, the new coronavirus causes mild or moderate symptoms, such as fever and cough that clear up in two to three weeks. For some, especially older adults and people with existing health problems, it can be more severe, causing pneumonia and sometimes death.

Charles is the latest high-profile figure to reveal a COVID-19 diagnosis. He joins a growing list of celebrities, athletes and other famous people who been tested for the novel coro-

navirus, even when they didn't have a fever or other severe tell-tale symptoms. That has fueled the perception that the wealthy and famous have been able to jump to the head of the line to get tested while others have been turned away or met with long delays.

Scientists, public health and frontline medical staff officials have urged Britain to ramp up the number of people being tested for the virus. Currently the vast majority of people with mild symptoms are not being tested.

The government says it tested 6,491 people on Tuesday and hopes to increase that to 25,000 tests a day within three weeks.

A member of the Scottish Parliament, Joan McAlpine, expressed surprise that Charles was tested. McAlpine, a legislator with Scotland's governing Scottish National Party wished Charles a speedy recovery, but wondered aloud whether he had received special treatment.

"Given that his symptoms are said to be mild, like many I wonder how he was tested when many NHS and social care workers cannot get tested," she said on Twitter. "My nephew, who has serious asthma and a chest infection was recently refused a test."

Charles and Camilla's tests were carried out by the National Health Service in Scotland. Its website says that in general people will be tested if they "have a serious illness that requires admission to hospital."

Scotland's Chief Medical Officer Catherine Calderwood defended the test.

"From the information I've been given it's clear he was tested for clinical reasons," she said. "And I'm pleased also that he is well and as with many people who have had this virus he has had a mild illness."

Charles and other senior royals kept up a busy schedule of engagements until earlier this month, when they cut off public events as the coronavirus

outbreak intensified.

Buckingham Palace said Queen Elizabeth II, 93, remains at her Windsor Castle home west of London with her 98-year-old husband, Prince Philip.

"Her Majesty the queen remains in good health," the palace said, adding that the queen last saw Charles briefly at an event on March 12 and "is following all the appropriate advice with regard to her welfare." Philip was not with the monarch when she last saw Charles, the oldest of their four children.

Clarence House said it was "not possible to ascertain from whom the prince caught the virus owing to the high number of engagements he carried out in his public role during recent weeks."

Charles' last public engagement was March 12. He has also had a number of private meetings, and participants at those sessions have been made aware of his condition.

Charles attended a March

11 awards ceremony for his Prince's Trust charity alongside celebrities including actor Pierce Brosnan and Ronnie Wood of the Rolling Stones.

Charles attended a round table meeting on March 10 with Monaco's Prince Albert II, who has since tested positive for COVID-19. The British royal is not believed to have shaken hands with Albert at the Water-Aid Summit in London on that day. Charles has been photographed doing the namaste gesture, with hands pressed together, at public events in recent weeks, including the Commonwealth Day Service on March 9 at Westminster Abbey. The event was the last formal engagement of Prince Harry and his wife, Meghan.

Charles has spoken to both his sons: Prince William, who is second in line to the throne, and Prince Harry, who is in Canada.

On March 3, before governments around the world started to join China in implementing sweeping curbs on public activities to counter the COVID-19 outbreak, William joked about the virus during an official visit to Ireland with his wife, Catherine, the Duchess of Cambridge.

"I bet everyone's like, 'I've got coronavirus, I'm dying' and you're like, 'No, you've just got a cough'," he told emergency workers at a reception hosted by Britain's Ambassador to Ireland in Dublin's Guinness Storehouse. "It does seem quite dramatic about the coronavirus. Is it being a little hyped-up in the media?" With hindsight, William may regret his remarks in Ireland, including what he said next: that he and his wife "are spreading the coronavirus" even more. □

Boko Haram kills 92 soldiers in Chad in country's worst toll

N'DJAMENA, Chad (AP) — Boko Haram extremists have killed at least 92 Chadian soldiers in the deadliest attack on the nation's forces, Chad's president said. The attack took place overnight Sunday into Monday in the village of Boma in the Lac province near the border with Nigeria and Niger. President Idriss Deby gave the toll on state television late Tuesday after visiting the site. "Never in our history have we lost so many men at one time," he said.

Boko Haram extremists have killed tens of thousands and forced millions from their homes during their more than decade-long insurgency. They have carried out numerous attacks in the Lake Chad region where Cameroon, Chad, Nigeria and Niger come together. □

Tsunami watch for Hawaii lifted after north Pacific quake

MOSCOW (AP) — A 7.5 magnitude earthquake struck in the northern Pacific on Wednesday and forecasters said tsunami waves were possible for the nearest shores. A brief tsunami watch for Hawaii was canceled.

The quake struck 219 kilometers (136 miles) south-southeast of Severo on Russia's far eastern Kuril Islands, the U.S. Geological Survey said. It was 56 kilometers (37 miles) deep.

The Pacific Tsunami Warning Center initially warned hazardous waves were possible in parts of the Kurils, but later said based on further analysis that waves of less than 30 centimeters (a foot) above tide level were possible in the northern Pacific.

It noted that the wave height and potential hazard may vary by geography and other local features. □

Mexico will receive cruise ships, but fumigate passengers

MEXICO CITY (AP) — The Mexican government said Wednesday it would continue to receive cruise ships "for humanitarian reasons," but that passengers would be "individually fumigated" before being taken to airports for return flights to their home countries.

The department said Mexico's position is that "cruise ships can disembark for strictly humanitarian reasons, without endangering the port's population."

It is unclear whether there are any more stranded passengers aboard cruise ships in Mexican waters. □

Brazil's Bolsonaro again says coronavirus concern overblown

RIO DE JANEIRO (AP) — President Jair Bolsonaro on Tuesday stuck with his contention that concern about the new coronavirus is overblown, and accused Brazilian media of trying to stoke nationwide hysteria. Bolsonaro said in a nationally televised address that the media had seized on the death toll in Italy, which he said is suffering so severely because of its elderly population and colder climate.

"The virus arrived, we are confronting it, and it will pass shortly. Our lives have to continue, jobs should be maintained," the president said.

Bolsonaro added that certain Brazilian states should abandon their "scorched earth" policy of prohibiting public transport, closing business and schools, and calling for mass confinement at home for their residents.

He did say people should be "extremely worried" about transmitting the virus to others, particularly to parents and grandparents. As he spoke, some Brazil-

ians who are home in self-isolation protested what they view as his blasé attitude toward the pandemic by leaning from their windows to bang pots and pans.

Bolsonaro has drawn criticism, initially for referring to the virus that causes COVID-19 disease as a "fantasy" and then, as authorities including his own health ministry instructed people to avoid gatherings, for going to a March 15 rally where he shook supporters' hands. On March 20, he called COVID-19 "a little flu."

About 2,200 people in Brazil have been infected so far, with 46 dead.

For most people, the virus causes only mild or moderate symptoms, such as fever and cough. For some, especially older adults and people with existing health problems, it can cause more severe illness, including pneumonia, and death.

The vast majority of people recover.

Bolsonaro traveled to the U.S. earlier this month and met with President Donald Trump. Since then, roughly

two dozen members of Bolsonaro's delegation have tested positive for the coronavirus, according to local media reports.

Bolsonaro has said he tested negative for the virus.

"In my particular case, with my history as an athlete, if I were infected by the virus, I wouldn't need to worry," Bolsonaro said in the address Tuesday.

"I wouldn't feel anything or, if very affected, it would be like a little flu or little cold."

After the address, the head of Brazil's Senate, Davi Alcolumbre, said that the country requires "serious, responsible leadership" and that now isn't the time to attack the press or other public officials.

Alcolumbre is in isolation at home himself, having been diagnosed with the virus.

"We consider grave the position expressed by the president today, on national networks, of attacking COVID-19 containment measures," Alcolumbre said.

"The position runs against the actions adopted by other countries and suggested by the World Health Organization. □

Aetna waives patient payments for coronavirus hospital stays

By **TOM MURPHY**
AP Health Writer

One of the nation's biggest health insurers is waiving patient payments for hospital stays tied to the coronavirus.

CVS Health's insurer Aetna said Wednesday that many of its customers will not have to make copayments or other forms of cost sharing if they wind up admitted to a hospital in the insurer's provider network. The move could save those patients thousands of dollars, depending on their coverage and how much health care they've used so far this year.

The waiver lasts through June 1. It applies to the insurer's 3.6 million customers who have fully-insured coverage, which is usually offered through a small business. Big employers that offer Aetna coverage also can choose to waive those payments, a spokesman for the insurer said.

The new coronavirus has caused a global pandemic that has infected more than 428,000 people and killed over 19,000 world-

wide, crippled economies and forced restrictions on the movement of millions of people in an effort to stop the virus from spreading further and overwhelming health care systems.

CVS Health Executive Vice President Karen Lynch said in a statement the company is trying to ensure that its customers have "simple

and affordable access" to treatment during the pandemic.

Many insurers have waived patient costs for testing or doctor visits and telemedicine to encourage people to get help with coronavirus symptoms.

But Aetna, which covers nearly 23 million people, is the first major insurer to ex-

tend a payment waiver to the bills many patients will fear most if they become sick.

For most people, the new coronavirus causes mild or moderate symptoms, such as fever and cough that clear up in two to three weeks. For some, especially older adults and people with existing health prob-

lems, it can cause more severe illness, including pneumonia and death.

A recent study put together by researchers with the Covered California health insurance exchange found that a lengthy hospital stay of 12 days could cost a total of \$72,000 on average nationally, depending on factors like how long a patient stays in an intensive care unit.

Insured patients would only pay a slice of that bill, but that slice could amount to as much as \$6,000 depending on their coverage. Many plans have deductibles that patients must pay before most of their coverage starts.

They also have out-of-pocket maximums, or limits for how much each patient has to spend on care each year. Experts say one hospital stay could easily push a patient up to the plan's limits.

"If you end up in a hospital you are going to blow through your deductible," said Peter Lee, the California exchange's executive director. □

Stocks jump, heading for first back-to-back gain in 6 weeks

By **STAN CHOE, DAMIAN J. TROISE and ALEX VEIGA**

NEW YORK (AP) — Stocks are leaping to more big gains on Wednesday, as Congress moves closer to approving a \$2 trillion rescue plan for the economy. The S&P 500 was up more than 3% in afternoon trading and was on track for its first back-to-back gain since the coronavirus outbreak set off a brutal sell-off five weeks ago. The big gains mean the stock market is now down by about a quarter from its record high set last month after earlier being down by more than a third.

The White House and Senate leaders announced an agreement on the aid bill early Wednesday, and a vote was expected in the Senate by the end of the day. Investors were anxiously waiting for this kind of aid, which will help blunt

the blow to the economy as businesses shut down to slow the spread of the coronavirus.

"They're hitting on all the right elements of what the U.S. economy needs during the shutdown to bridge itself to the other side to

open up economic activity," said Darrell Cronk, chief investment officer of Wells Fargo Wealth and Investment Management. But even optimists say the package provides just the second leg of three that markets need to regain

lasting confidence. The Federal Reserve and central banks are also offering tremendous aid by cutting interest rates and supporting lending markets, but investors say they need to see the number of new infections peak before they can feel comfortable knowing how deep the looming economic downturn will be.

"There's a lot of bad news, there's very little tangible good news and there's a lot of uncertainty in between," said Jack Ablin, chief investment officer at Cresset.

Investors are also still waiting to see the details of Washington's plan, which will include direct payments to most Americans and aid for hard-hit industries. It's unclear when the House of Representatives could vote on the plan.

"It's too early to call a bottom because there's way

too much uncertainty," said Tony Rodriguez, head of fixed income strategy at Nuveen.

"The bottom implies it's not going lower, and I don't think that," he said. "For it to become a bottom, you would need to see much better news coming out on the health care side of this."

The number of known infections has leaped past 450,000 people worldwide, and more than 20,000 have died, according to Johns Hopkins University. Overall, more than 112,000 have recovered.

For most people, the new coronavirus causes mild or moderate symptoms, such as fever and cough that clear up in two to three weeks. For some, especially older adults and people with existing health problems, it can cause more severe illness, including pneumonia and death. □

Rural America watches pandemic erupt in cities as fear grows

By GILLIAN FLACCUS

Associated Press

DUFUR, Ore. (AP) — The social distancing rules repeated like a mantra in America's urban centers, where the coronavirus is spreading exponentially, might seem silly in wide-open places where neighbors live miles apart and "working from home" means another day spent branding calves or driving a tractor alone through a field.

But as the pandemic spreads through the U.S., those living in rural areas,

In this photo taken March 20, 2020, cattle rancher Mike Filbin stands on his property in Dufur, Ore., after herding some cows and talks about the impact the new coronavirus is having on his rural community.

Associated Press

too, are increasingly threatened. Tiny towns tucked into Oregon's windswept plains and cattle ranches miles from anywhere in South Dakota might not have had a single case of the new coronavirus, but their main streets are also empty and their medical clinics overwhelmed by the worried. Residents from rural Alabama to the woods of Vermont to the frozen reaches of Alaska fear the spread of the disease from outsiders, the social isolation that comes when the town's only diner closes, and economic collapse in places where jobs were already tough to come by. "Nobody knows what to do and they're just running in circles, so stay away from me is what I'm saying," said Mike Filbin, a 70-year-old cattle rancher in Wasco County, Oregon, one of the few parts of the state that has yet to see a case of COVID-19.

"Right now, we're pretty clean over here, but we're not immune to nothin' — and if they start bringing it over, it'll explode here."

To make matters worse, some of the most remote communities have limited or no internet access and spotty cellphone service. That makes telecommuting and online learning challenging in an era of blanket

school and work closures, and it eliminates the possibility of the FaceTime card games and virtual cocktail hours that urban Americans have turned to in droves to stay connected.

The routine ways that rural Americans connect — a bingo night, stopping in at a local diner or attending a potluck — are suddenly taboo.

"Rural people are reliant on their neighbors and have more confidence and trust in their neighbors," said Ken Johnson, a senior demographer at the Carsey School of Public Policy and professor of sociology at the University of New Hampshire. "Now you have people who are supposed to self-isolate themselves. What does that mean when people you depend on, in order to help you, are going to put themselves and their families at risk? I don't know what that will do in rural America."

Neil Bradshaw, the mayor of Ketchum, Idaho, is starting to see the answer in his own community.

The rural resort town has struggled since the arrival of COVID-19, and he fears if the virus lingers too long, it could devastate it. The town is nestled next door to the tony skiing destination Sun Valley Resort and is known as the second-

home haven for dozens of celebrities.

It's also become the epicenter of Idaho's caseload, with at least 35 cases and known community spread of the virus. At least 14 of the cases are among health care workers, forcing the town's small medical workers to bring in replacement staffers from nearby cities.

"Our town thrives on people coming to town, and for the first time in our history we are discouraging visitors," said Bradshaw, of the town of 2,700 people. "Initially people had different levels of adoption, but there's tremendous community pressure that we're all in this together. We've gone from being a vibrant town to a ghost town."

The town's coffers rely on a local option tax, and if that drops by half the city will have lost \$700,000 in revenue, he said.

Some communities have pushed back on shutdowns that have brought daily life to a standstill. Leaders from seven Utah counties, for example, sent a letter earlier this week to Gov. Gary Herbert urging a "return to normalcy," and said the closure of schools and business was causing panic and hurting the economy. "As of (Monday), the total deaths attributed to the virus in the United States

stands at ninety," the letter states. "Not nine hundred, not nine thousand, not ninety thousand. Ninety. This number is sure to rise in the near future but we need to keep our wits about us."

Others worry about outsiders bringing the disease to truly remote areas that aren't equipped to deal with it. Across the nation, there are over 51,000 general intensive care beds in urban counties, compared with just 5,600 in rural counties, according to data compiled by The Associated Press.

Those beds serve a smaller population than in urban areas, but it would still take fewer people in rural areas to overwhelm a typical hospital. In fiscal year 2018, the average rural hospital had eight ICU beds, compared with 20 for a typical hospital in an urban area.

In Georgiana, a small town in southern Alabama, the only hospital closed last year and residents have now been forced to flock to the health clinic instead when a person in a town 5 miles (8 kilometers) away was diagnosed with COVID-19. More than 30% of Georgiana's 1,600 residents are over age 60, putting them at higher risk with limited medical facilities to serve them, said Mayor Jerome Antone.

The town's older residents, he said, are "aggressively upset" even though no one there has been diagnosed yet.

In Alaska's Point Hope, an Inupiat whaling village at the edge of the Arctic Ocean nearly 700 miles (1,130 kilometers) north of Anchorage, tribal leaders have been preparing and discussing potential issues such as air travel into town. The state's limited road system doesn't reach the community of 900 people, which relies on planes for much of its connection to the outside world.

This week, one of the two airlines that serve Point Hope will begin restricting flights to cargo and passengers with medical or other essential needs. □

S&P Global Ratings:

Stress Scenario: The Sovereigns Most Vulnerable To a COVID-19-Related Slowdown in Tourism

NEW YORK, US — Standard & Poor's (S&P) is a leading index provider and data source of independent credit ratings. It is the provider of the popular S&P 500 Index as well as several other global market indices. With the following scenario analysis they give a general estimate of how a slowdown in tourism--in isolation from other coronavirus effects-- might affect the sovereigns we rate. The full article is to be read on: spglobal.com.

Key takeaways:

- COVID-19 will take a major toll on the world's largest tourism exporters.
- S&P has run 122 of their rated sovereigns through three scenarios--"limited", "extensive", and "extreme"--under which tourism receipts decline by 11%, 19%, and 27% as per similar stresses modelled by the International Air Transport Association (IATA).
- Despite the uncertainty, under their baseline expectation that this is a one-year shock, most sovereign ratings would be resilient to a temporary slide in tourism flows.
- Their scenario analysis suggests "Sun, Sea, and Sand"-focused island economies in the Caribbean and elsewhere would be the most heavily exposed to a uniform slowdown in global tourist footfall.
- The second heaviest-affected region globally would be the Balkans, where even under the lower stress scenario, falling tourism arrivals would shave 1.9-2.2 percentage points (ppts) off headline GDP

- Even larger more diversified exporters of tourism, such as Portugal, Turkey, Spain, and Australia could see negative GDP contributions to tourism of between 0.9-2.5 ppts from full-year GDP growth under the extreme shock scenario, which is less unrealistic than a few weeks ago in light of national quarantines and travel bans. □

"Aruba to me is the most wonderful place in the world. It is truly my island of love. We have visited 6 fabulous times and we were planning our seventh visit on May 16. We are so very saddened that we had to cancel our trip that we have so been looking forward to. We had started our countdown 220 days ago. The only thing that makes this disappointment slightly tolerable, but only slightly, is that we will re-book and visit your beautiful island in October. So as we begin another long countdown to visit Aruba, we will keep our memories in our hearts and look forward to creating more very soon!

Aruba is the Best!"
Paula Hutchinson

"My wife and I have been coming to Aruba for the last fifteen years, and we are very sad to learn that your wonderful island is essentially shut down.

We know how important tourism is to your One Happy Island, and we hope you can find the strength and safety to make it through this.

Since you have always been so warm and friendly to us, I'm sure those positive qualities will help you all get through this.

We plan on returning next January - our trip is already booked - and in the meantime all of us worldwide will do what it takes to get to the other side of the corona virus.

Masha danki,

Flip Brown & Sandy Post form Burlington"

NOW: Peru's Rotisserie Chicken for take-out

Take it all out

"Our chicken is marinated 24 hours in a special mix of Peruvian herbs and spices including garlic, cumin and Peruvian pepper and roasted for one hour and 10 minutes while preserving its full flavor. Another important element of our newest product is that the price is a bargain right now." It is ideal for families with children, kids love roasted chicken. Normally it comes with a fresh garden salad and fries, but we offer as well 'chaufa' (Peru's version of Chinese Fried Rice) and other side dishes. There will be more surprises in the future. Original combos with Inca cola, very well-known in Peru, are on the menu. We just opened and we already sense that it is a niche we found." To make the happy take-out meal complete there is home-made ice-cream, for sure a hit with the little ones.

A family-oriented restaurant is what Asi es mi Peru strives for, and with this extra value of delicious roasted chicken they make this a fact.

For more information check the Facebook page: AsiEsMiPeru or website www.asiesmiperuenaruba.com.

EAGLE BEACH — "With the development of the corona virus (COVID-19) we are faced with a pandemic which means a greater risk of exposure for our employees and guests alike.

In the light of this concern we are closing Asi es mi Peru and The Kitchen Table as of March 18 till April 7, 2020,' informs owner of Asi Es Mi Peru restaurant Jan van Nes. However, their soft and juicy Peruvian roasted chicken is now offered for a great price to take-out. This is not your ordinary fast food chicken, but a high-quality, finger-licking dish accompanied by fries and salad. Try it and support our local restaurant at the same time.

Las Brasas Peruanas is the new kid on

the block, part of the restaurant, Asi es mi Peru, at Paradise Beach Villas. Offering authentic Peruvian roasted chicken that gives you a mouthwatering experience, moreover because this is a dish prepared with love by the Peruvian chef, presented with pride by the Peruvian owner Roxana van Nes and her Dutch-Surinam husband Jan. You will encounter soft and juicy meat, a crispy skin and that special taste because of a 24-hour marinade_ a must-try. "Pollo a la Brasa, roasted chicken, is a very popular dish in Peru and the first

thing my wife does when she visits her home country is paying a visit to Pardos, a well-known chicken rotisserie in Lima. She realized she never found a place like this on the island of Aruba", says Jan. "The seasoning makes the difference and when it lacks the chicken will be dry and without taste. That was our motivation to bring our own charcoal burning rotisserie from Peru, eco-friendly as it traps heat and steam internally meaning there is no smoke." In the United States roasted chicken is a popular dish, now visitors can have a taste of their favorite home-dish, but with the Peruvian twist.
